SAMUEL ROSHAN

AI & Data Science Graduate | Generative AI · Agentic AI · RAG · Machine Learning · Deep Learning

Chennai, India | +91 93617 43345 | samuelroshanin@gmail.com | github.com/samuel2004-pixel |linkedin.com/in/samuel-roshan

PROFESSIONAL SUMMARY

AI and Data Science graduate with hands-on experience building RAG pipelines, LangChain-based LLM applications, and machine learning models using PyTorch, TensorFlow, and Scikit-learn. Comfortable across the full data workflow — from cleaning and exploratory analysis to model development, visualization, and deployment. Looking to bring a research-driven, detail-oriented approach to an AI/Data Science role focused on building practical, data-informed solutions.

KEY HIGHLIGHTS

- Delivered 5+ independent AI/ML projects on GitHub, spanning agentic AI systems, LLM-powered chatbots, and real-world simulation modeling.
- Completed a hands-on Data Science & Analysis internship, building GenAI applications and ML models in a live business setting.
- Certified in Agile (Scrum) and NLP fundamentals, reinforcing a strong foundation across the full ML lifecycle.

EXPERIENCE

Data Science & Analysis Intern — Judah Code Technologies, Trichy, India *Aug 2025 – Oct 2025*

- Built and experimented with ML, DL, and LLM-based models using PyTorch, TensorFlow, and Scikit-learn; developed RAG pipelines and LangChain workflows for LLM-based applications.
- Cleaned and prepared datasets using Pandas and NumPy, then ran SQL queries and exploratory data analysis to surface key trends.
- Built data visualizations and reports in Power BI, Matplotlib, and Plotly to communicate findings to the team.
- Worked across Jupyter, Google Colab, VS Code, GitHub, Postman, and Docker for development, testing, and version control.
- Strengthened Python and SQL skills, with exposure to basic full-stack deployment concepts.

PROJECTS

Lead Generation Agent | *Tools: Python, LangChain, LLMs, AI Agents*
github.com/…/lead_generation_agent

- Agentic AI system in Python that automates lead generation and qualification using LLM-powered workflows.

AI Finance Bot | *Tools: Python, LLMs, LangChain*
github.com/…/finance-bot

- Conversational finance bot using LLMs to deliver automated financial guidance and query handling.

LangChain Chatbot | *Tools: Python, LangChain, RAG, LLMs*
github.com/…/chat-bot-langchain

- Context-aware chatbot supporting multi-turn, document-grounded conversations.

AI Health Assistant | *Tools: Python, LLMs, Streamlit*
github.com/…/health-assistant-

- AI assistant using LLMs to answer health-related queries and provide guided support.

Traffic Congestion Simulator for Freeway Corridors | *Tools: Python, Pandas, Matplotlib*
github.com/…/traffic-Congestion-Simulator-for-Freeway-Corridors

- Simulation model analyzing traffic congestion patterns across freeway corridors for data-driven transport insights.

Recommendation & Insights Tool — Judah Code Technologies (Internship) | *Tools: Python, Pandas, SQL, Power BI*

- Internal recommendation and analytics tool to analyze customer data and generate personalized, data-driven recommendations.

EDUCATION

B.Tech in Artificial Intelligence and Data Science — Jeppiaar Engineering College (ANNA UNIVERSITY) *2022-2026*

SSLC & HSC — Chellammal Matriculation Higher Secondary School *2022*

CERTIFICATIONS

- Scrum Fundamentals Certified — Nov 2025
- NLP Techniques — GUVI, Nov 2025
- Experience-Based Project Learning — Career Shaper, Oct 2025

SKILLS

Languages: Python, SQL
ML / DL: Scikit-learn, PyTorch, TensorFlow, Deep Learning, Computer Vision
Generative & Agentic AI: LLMs, RAG, LangChain, AI Agents, Prompt Engineering, Vector Databases (FAISS, ChromaDB)
NLP, Speech & Data Analysis: NLP, Hugging Face Transformers, Speech-to-Text, Pandas, NumPy, Matplotlib, Seaborn, Plotly, Power BI
MLOps, Deployment & Tools: Docker, Git/GitHub, Streamlit, FastAPI basics, MLflow basics, CI/CD basics, Jupyter, Google Colab, VS Code, Postman
Databases, Big Data & Cloud: MySQL, Apache Spark, AWS
Soft Skills: Analytical thinking, problem-solving, team collaboration, communication, fast self-learner
